raptor  
**R-SAP**

INSTITUTION

with more aspects digitized profits can be enhanced and also help deliver better results

**The Raptor TutaZ** is an effective and easy to use method that saves time and effort of teachers to train students. The Entire teaching content for teachers will be available in just a matter of a click or prompting of keyword in the search tab. Adapting to modern teaching techniques leaving behind unilateral methods will be as easy like never before. The teaching fraternity can now focus on delivering high quality teaching content to their students, ensuring conceptual clarity, improved learner behaviors and on the whole learning and teaching success in the classroom and beyond.

## Advantages:

Easy to adapt, as it is in-line with the existing syllabi

Coverage of all important concepts including lab experiments

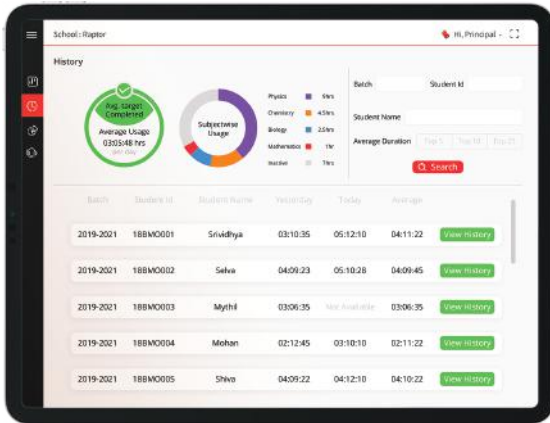

Well researched content

Instead of depending on external teaching fraternity or institutions whose financial prospects are out of the periphery, the existing teaching fraternity can handle the same classes with no compromise on the expertise or the outcome from the students.

## Highlights:

- The entire 11<sup>th</sup> and 12<sup>th</sup> portions are available **topic wise**
- **2000+ VIDEOS** for display to students that covers variety of topics in the visual stories to live experiments
- **1000+ techniques** to find problem solution
- **5000+ higher order drill questions** with solution to be worked out in classroom

**R-SAP (RAPTOR STUDENT ASSESSMENT PROGRAM)** is an effective, tried and tested, easy to use test portal designed exclusively by the subject matter experts and technology team of Raptor. This program allows students to take innumerable tests and give their best shot on a daily basis/weekly basis or as per a teacher's wish to check the progress of a student under supervision.

## Advantages:

Questions handpicked by experts based on different aspects

The entire test program can be commenced without any additional investment

Test conducted at schools under supervision

No need to set physical question paper or correct answer sheet

Our software identifies strong and weak areas of every student, therefore helping teachers ease their work load and provide focus on student improvement within the subject areas

## Highlights:

- **40000+** questions
- Easy and **user friendly Admin** access
- Regular tests to improve the student chances and attain **100% result.**

# raptor Metrics

RAPTOR Metrics is a one-stop portal for viewing and analyzing reports based on the tests taken by the student in the assessment module. Our teams of analytical experts have meticulously designed the app providing the complete track of the student's performance and progress.

All the reports will be available in the dashboard of the head of the institution, principal, teachers, students and parents thus help analyze the areas of improvement of the student.

## Highlights:

Raptor Metrics reports will focus on reports based on the following.

**Chapter-wise** | **Subject-wise** | **Test-wise** | **Student-wise** | **Class-wise**

“A successful venture needs sound partnerships”.

## Choosing **raptor**

A partnership with Raptor will help transform any institution to an elite stature with minimal changes to infrastructure or manpower. Highly knowledgeable, dedicated and innovative team of Subject matter experts, engineers and marketers constantly work to maintain products standards at international level. We will always consider our clients as a part of Raptor family and work in unison to help deliver the best outcome.
